SOLUTIONS:

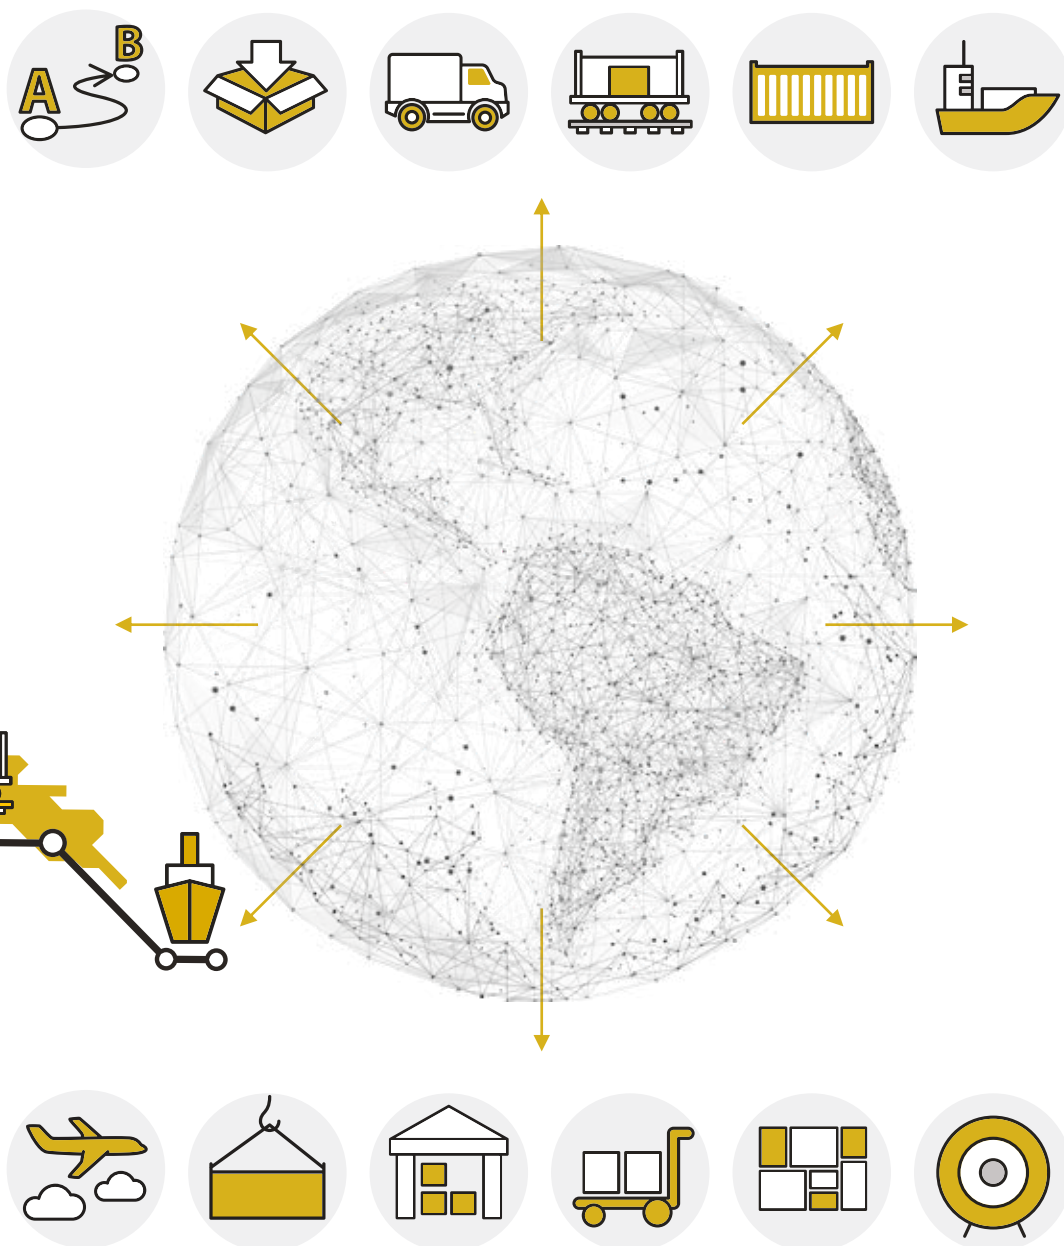

| | |
|-------------------|-------------------------|
| IMPORT | SUPPLY CHAIN MANAGEMENT |
| EXPORT | MARKET INTELLIGENCE |
| QUALITY ASSURANCE | ESCROW TRADING |

IMPORT & EXPORT

As an International trading company, we are strategically Based in Istanbul a world trade hub with over 180bn\$ in exports (2019), our access to local and international suppliers/ manufacturers makes foreign trade the core of our business. Complying by High standards and reliability; we are an active member of the import and export industry offering a span of solutions to meet the client requirements from sourcing to import and export or logistics needs.

Our Import and Export solutions are available to wholesalers, Importers and Exporters, Suppliers and Distributors, Trading companies and retailers.

QUALITY ASSURANCE

From project commencement to delivery, Axon assures all products are up to client specifications minimizing quality issues occurring throughout the production process up to delivery assuring the supplier/ manufacturer is in conformance with quality regulations at your set standards.

Product Inspections and **quality assurance consultancy** are fundamental solutions aiding to avoid deviations and deficiencies caused either by supplier/manufacturer during production or lack of accurate product specifications.

Inspection Stages:

- **First Article** - prior to production to verify product specifications.
- **In Process** - verification prior to 50% progress.
- **Pre-Shipment** - upon completion of production to verify that finished goods conform to your specifications.
- **Container Loading** - Axon ensures that products are up to qualifications, properly packed and verifies count on loading site.

Stage 1
Supplier Selection

Stage 2
Pre-Production

Stage 3
Production

Stage 4
Shipment Preparation

Stage 5
Shipment

Stage 6
Product Arrival

Quality assurance solutions are usually used in international trade and the activities of import/export, if you are a manufacturer importing materials for production purpose or importing products with trading purposes.

Axon's team is here to ensure your products have been manufactured up to required specifications, minimizing your risk of receiving lower grade products, inspections on your shipments are on site, samples are checked against quality standards and your desired requirements identifying defects or flaws in a categorized form with up to date digital reports and data saving your time to take needed action with intended supplier; ensuring on schedule shipping to desired destination.

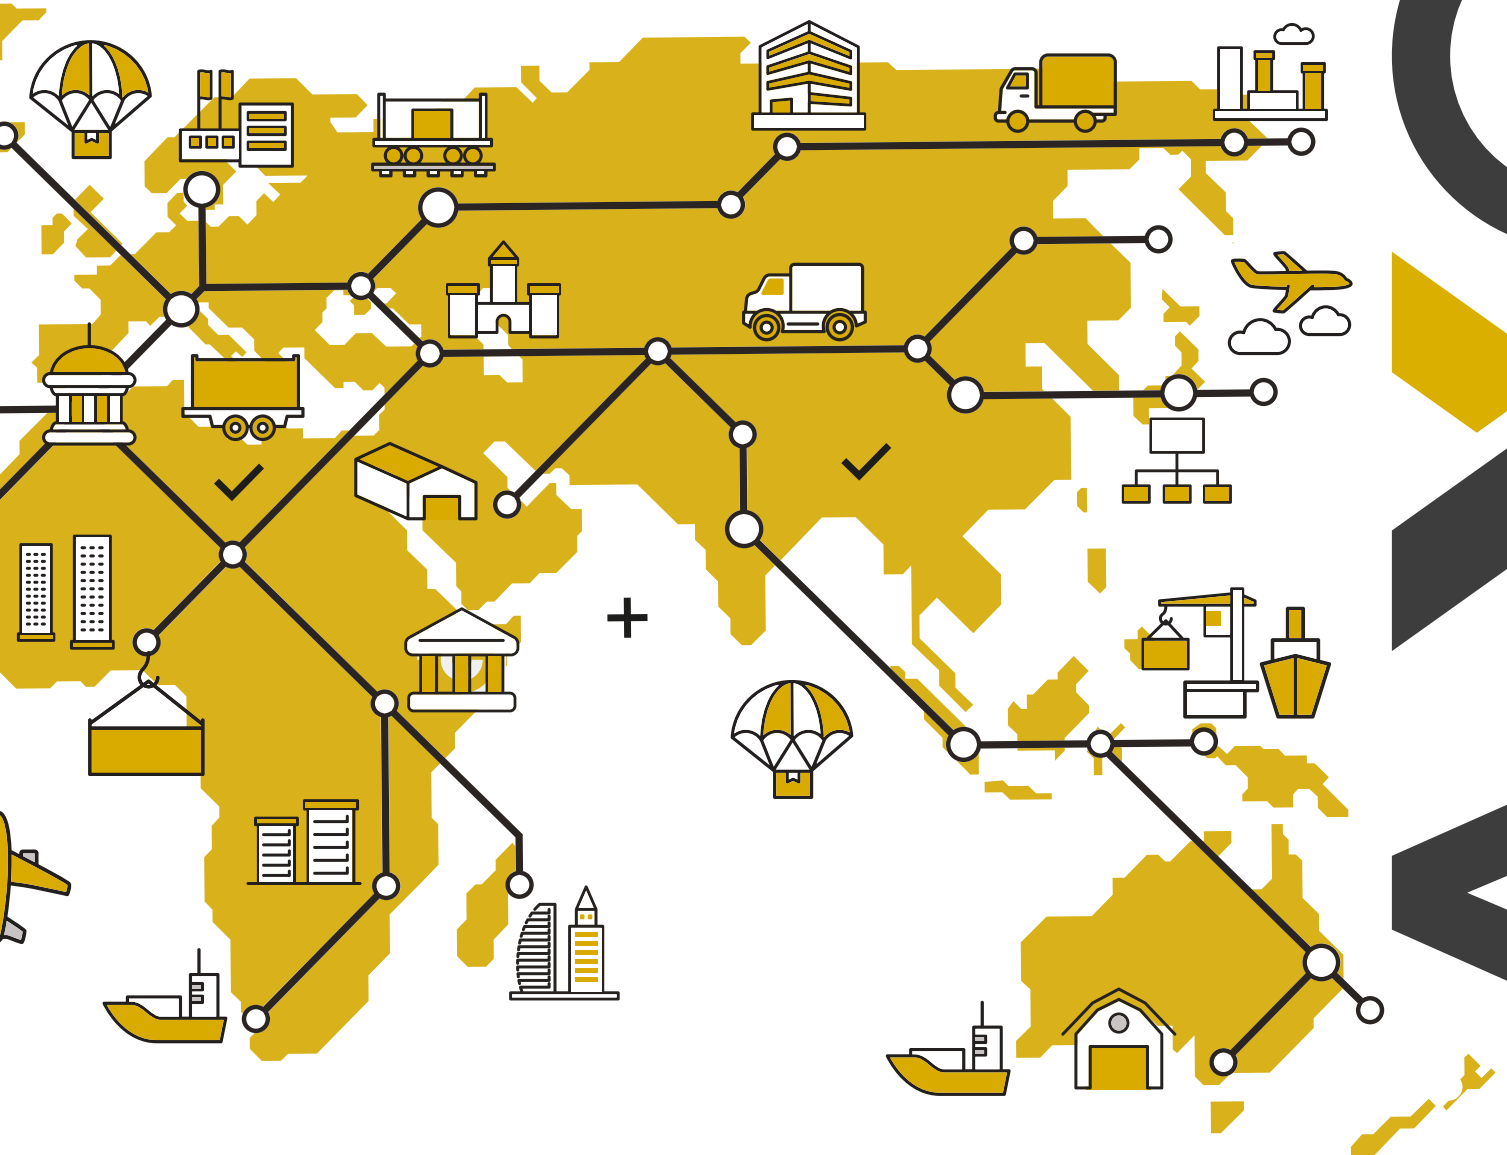

SUPPLY CHAIN MANAGEMENT

Axon is here for your supply chain needs, we vet and provide comparable information for various suppliers tailored to your requests, in addition to management over existing suppliers achieving higher efficiency and better results.

Our supply chain management solutions:

- Supplier Verification via vetting process assuring 100% compliance with terms and standards.

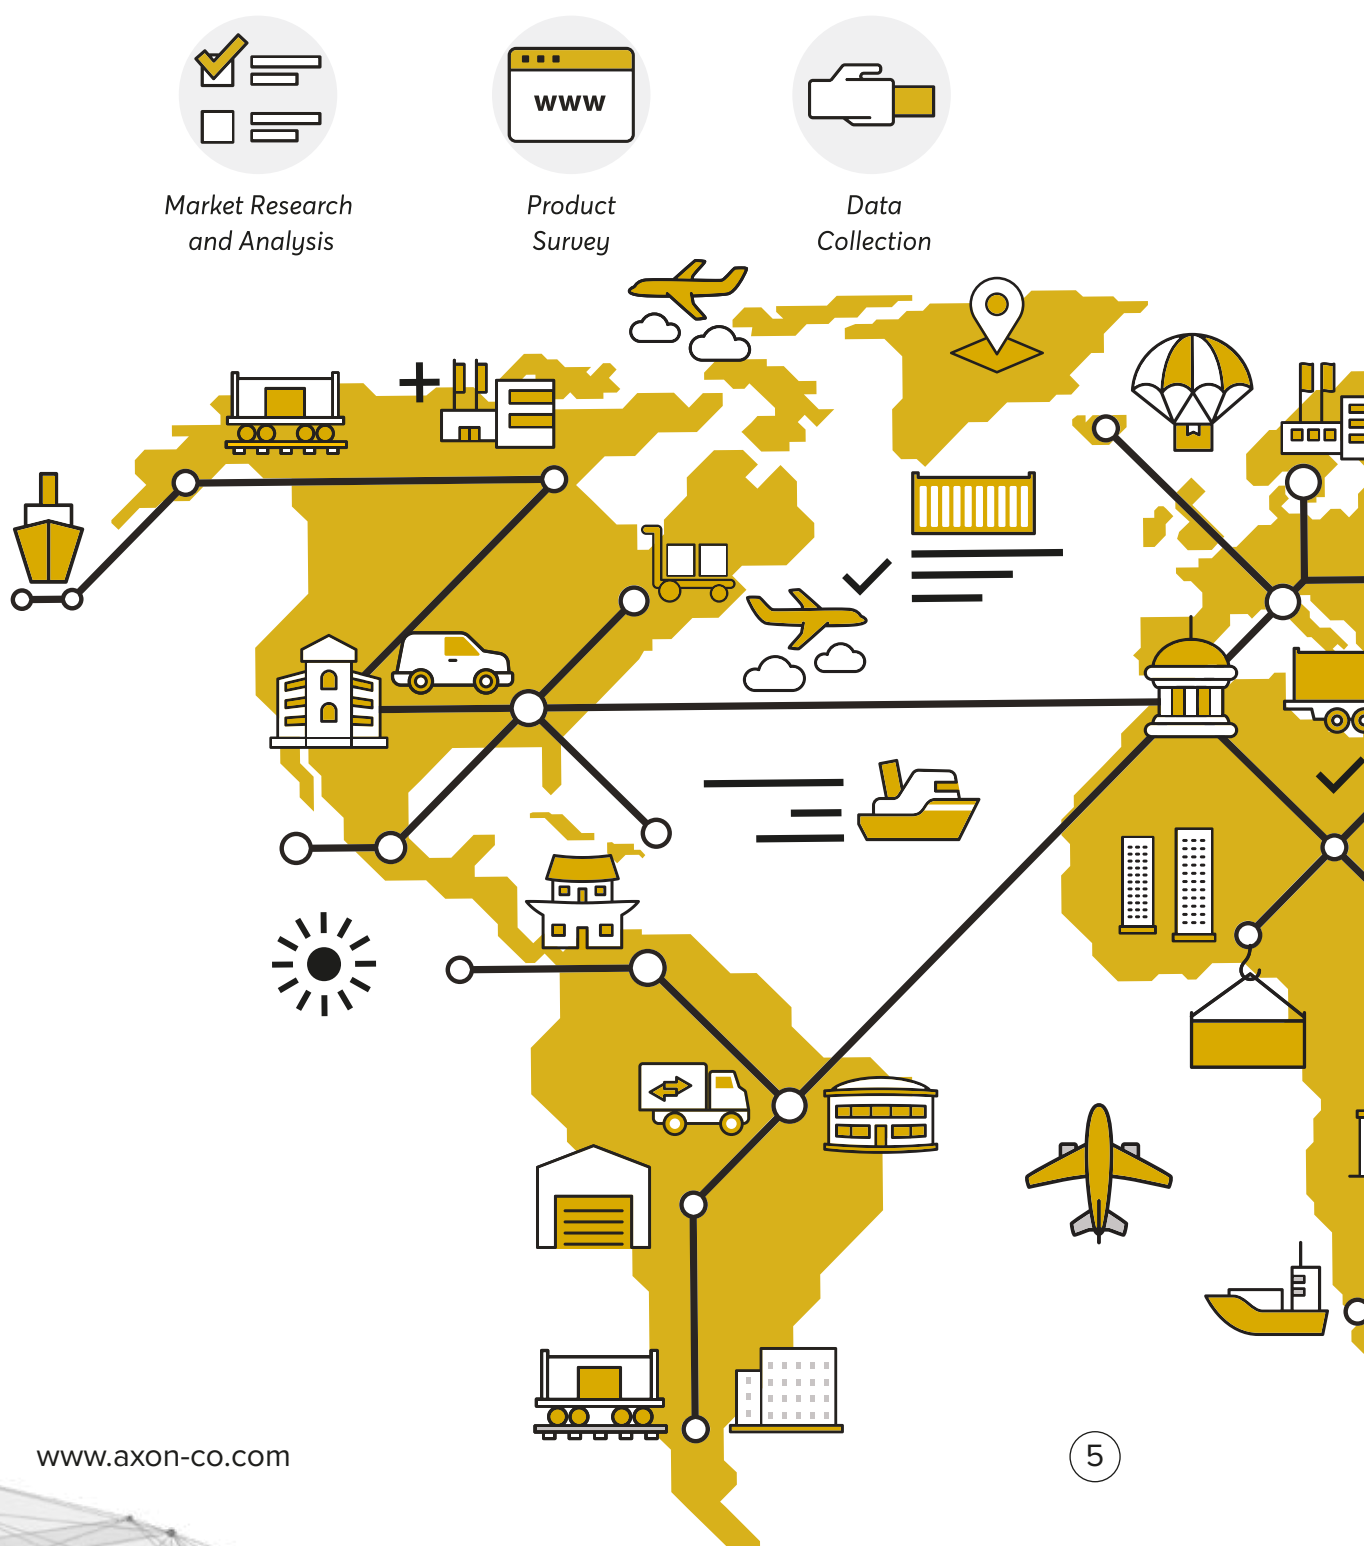

Supplier Compliance and Management via experienced personnel to ensure standards and schedules are accomplished.

MARKET INTELLIGENCE

Our team of experts will cater to your every need scouting the market to fulfil your requirements providing you with a full market survey tailored to your requests assuring quality, time and price.

Axon hires innovative techniques to gather market information to fully understand your target market than influence decision making for a specified product.

ESCROW TRADING

Escrow is a third-party contractor service offered between buyer and seller in international trade facilitating transactions between both parties, as a third-party contractor the financial transactions are handled through us; upon receipt of payment we verify to the seller a notice to proceed with shipment in conformance with goods requested from buyer end up to their conditions, quality and schedules.

Upon delivery of goods to destination, the buyer is given a timeframe to examine and test products against contractual specified standards prior to release of payments to seller. After verification and acceptance, the funds are accordingly released to the seller.

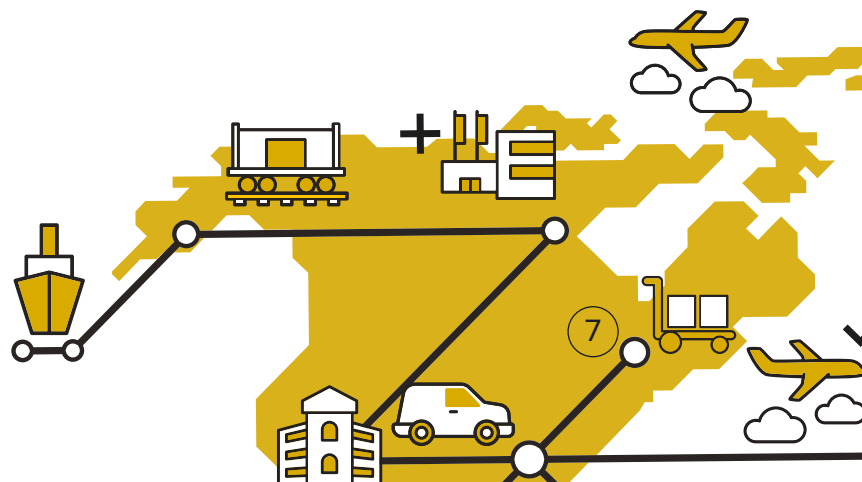

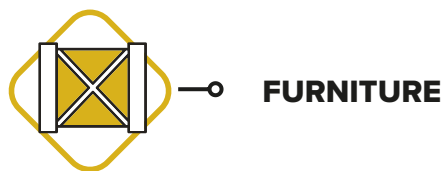

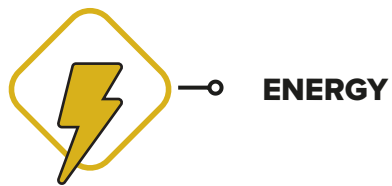

Considered as a cash-in-advance facility reducing potential fraud for buyers, and assuring seller's full payments on time, Escrow solutions minimize the risk for both buyer and seller assuring both parties contractual rights and conditions are met, as well as, ensuring parties are in conformance on both ends of the transaction.
